# Phaser® 3600 Laser Printer

**Pure printing pleasure.** Combining surprisingly high-end performance features with consistent day-in-day-out reliability — all in a compact device that's built to keep your productivity high and your costs low.

## The power to please

The Phaser 3600 laser printer brings Xerox quality and superior performance to single users and small workgroups that demand superior productivity.

- **Fast printing performance** delivers results at up to 40 ppm — plenty of speed to keep up with your big print load.
- **A first-page-out time as fast as 9 seconds** means you spend less time waiting for print jobs and more time staying productive.
- **Complex print jobs, handled with ease.** A robust 400 MHz processor works behind the scenes to quickly take care of whatever comes its way — even multipage jobs loaded with graphics.
- **Network printing** (standard on the N and DN configurations) makes the Phaser 3600 laser printer a more powerful office ally, helping more users get more work done.
- **Get even more helpful capabilities**, like Secure Print, which keeps a private print job in the queue until released by the job owner, and RAM collation, which speeds up larger print jobs by quickly processing multiple sets of multipage documents.

## Unbeatable value

With advanced features typically found on higher-priced laser printers, the Phaser 3600 offers more performance for less.

- **More speed, better features and a robust, user-friendly design** — no other printer in its class matches the Phaser 3600 laser printer's total-value offering.
- **Print more without interruption** with two standard paper trays holding a total of 600 sheets. Need more capacity? An additional 500-sheet tray is available.
- **Affordability comes standard**, with a low cost per page and helpful, cost-saving features like toner-save and energy-save modes, plus available automatic two-sided printing and N-Up printing for more efficient paper usage.
- **The print cartridge is easy to replace**, and lets you choose standard-capacity at a lower price, or high-capacity, for greater print volumes and reduced total cost of ownership.
- **We stand behind our promise** of outstanding reliability and performance with a standard one-year warranty. Plus, the **Xerox Total Satisfaction Guarantee** provides free replacement of your Xerox device if for any reason you are not satisfied with its performance.

## Xerox simplicity

Helpful administration tools, like CentreWare IS internal web server, make it fast and easy to manage everyday usage. You get quick and convenient access to a wealth of features, including printer and job status, and toner volume updates, media availability, in-depth accounting information, simplified printer installation and network administration, and more.

## The security your business needs

### Safe documents

- Secure print holds job in the queue until released with a PIN.
- Watermark customizes documents with words, such as "Confidential."

### A good network citizen

- IEEE 802.1x protocol ensures that connected printers have proper authorization.
- HTTP enables secure device administration.
- SNMP v3.0 provides encrypted network management.

## The capacity to do more

The Phaser 3600 laser printer offers more printing features for fast-paced businesses on a budget. A choice of configurations are available to meet the needs of a busy single user or a small work team, while more options further expand the printer's capabilities.

**Simple layout and easy-to-read** two-line front panel user interface displays the printer status, error messages and jobs in progress.

- 1** **Automatic two-sided printing** is standard on the Phaser 3600DN, and available as an option on the Phaser 3600B and 3600N models.
- 2** **100-sheet multipurpose tray** handles a variety of paper, from 16 – 43 lb. bond to 60 lb. cover (60 – 163 gsm), including envelopes, labels, business cards and other specialty media.
- 3** **500-sheet input tray** feeds 16 lb. to 28 lb. (60 – 105 gsm) paper.
- 4** **Add an additional 500-sheet input tray** to boost total paper input capacity to 1,100 sheets.
